# LOUIS REITH

Born 1983 Hengelo, the Netherlands  
Lives and works in Amsterdam, the Netherlands.

With a background in graphic design and an interest in printed matter, book design and handicraft, I started a series of ink drawings on old book pages during my Art and Cross media Design studies at the AKI. Bold shapes formed an illegible visual language where hidden words were portrayed as abstract solitaire sculptures on a horizon. Deliberate compositions were made with precision on the aged pages. As if they were preserved objects of an archive from the future.
